PROFILE SUMMARY

Software Tester with hands-on experience in Manual and Automation Testing, specializing in ensuring the quality and reliability of web applications. Skilled in Selenium WebDriver, Playwright, Postman, and Jira, with expertise in functional, UI, smoke, sanity, and regression testing. Strong in test case design, defect reporting, and Agile-based testing processes, with the ability to deliver high-quality software through effective collaboration and attention to detail.

TECHNICAL SKILLS

Languages : Java, JavaScript, SQL, HTML, CSS
Testing & Automation : Manual Testing, Functional Testing, Smoke Testing, Regression Testing, UI Testing, Automation Testing, Test Case Design, Defect Reporting
Frameworks & Libraries : Selenium WebDriver, TestNG, React.js
Tools : Git, Postman, Apache JMeter, Playwright, Jira
Concepts : Agile Methodology, SDLC, STLC

PROFESSIONAL EXPERIENCE

QA Engineer

Brands Trek Coders LLP | June 2026 – Present | Calicut, Kerala

- Perform manual testing of live web and mobile applications to ensure functionality, usability, and system reliability.
- Design and execute test cases and test scenarios based on project requirements and business workflows across web and mobile platforms.
- Identify, document, and report defects with clear reproduction steps, severity, and priority levels using defect tracking tools.
- Verify bug fixes through retesting and regression testing, and collaborate with developers to ensure high-quality software delivery.

Software Testing Intern

Bridgeon Solutions LLP | July 2025 – May 2026 | Calicut, Kerala

- Performed manual testing of web applications to validate functionality, usability, and application stability.
- Created and executed test cases based on business requirements and user stories.
- Reported and tracked defects, assisting the development team in timely issue resolution.
- Gained hands-on experience in automation testing using Selenium WebDriver, Playwright, and API testing with Postman.

PROJECT

Resiko AI Resume Builder | Web Application

Manual & Automation Testing | Selenium WebDriver (Java), TestNG

- Performed end-to-end manual testing of authentication, resume creation workflows, and application validations, ensuring functional accuracy and reliability.
- Designed and executed comprehensive test cases and test scenarios based on requirements, while conducting regression and cross-browser testing.
- Developed and maintained Selenium WebDriver automation scripts using Java and TestNG, identifying and tracking defects to improve application quality.

Paragon WebResto | Restaurant Management Web Application

Manual & Automation Testing | Playwright

- Performed manual testing of restaurant management modules, including order processing, billing, and user workflows, to validate business requirements.
- Created and executed test cases covering functionality, usability, and regression scenarios while conducting cross-browser testing.
- Developed Playwright automation scripts for critical user journeys, reported defects, and ensured a consistent and reliable user experience.
